

2022 | HEIDELBERG CX 104 6 LX HYBRID

+ USED PRINTING MACHINES YEAR: 2022 6 COLOR + COATER

Printer description

The Speedmaster CX 104-6 LX is a top-tier, high-throughput sheetfed offset press with 6-color + coating and UV hybrid functionality. It combines large sheet capacity, smart automation. Many packaging printers choose the CX 104 for its hybrid capabilities and high uptime. Ideal Use Cases • High-volume commercial print: magazines, catalogs • Packaging: folding cartons, larger board stocks (250–500gsm) • Label printing: with high flexibility in substrates

EQUIPMENT

- Double sheet control - ultrasonic
- Chromed impression cylinders
- Coating unit with chambered doctor blade
- Foil package for plus feeder and delivery
- Sheet slow down device
- Preset Plus in feeder
- Preset Plus in delivery
- Intercommunication system between infeed and delivery
- Electromechanical double sheet control
- StaticStar compact
- Steel Plate feeder and delivery
- Thickness 0,3 - to 1,0 mm

TECHNICAL DETAILS

- Sheet Counter : 21 Million
- Max. format : 720 x 1.040 mm
- Min. format :: 340 x 480 mm
- Print output : 15.000 Sheet

- Coating Star Compact
- Extended 3 Módulos (X3)
- multiple sheet detector
- UV package Coating Unit
- Electromechanical Stream Controls
- Air Transfer System
- CleanStar Preset
- AirStar pro water cooled
- Programmable auto washing for ink roller and blanket
- IPA-Metering Premium
- UV Drying - 2 x End of Press
- Printing units prepared for intermediate UV dryers
- Non Stop in the feeder
- Automatic cleaning of inking rollers
- Anilox roller 120 L/cm
- Press Center Energy Reporting
- UV Interdeck I.S.T. UV lamp (x3) movable all positions
- PowderStar AP 262 powder sprayer
- Software Press Center DryStar Advanced
- Software Press Center Instant Start
- XL Sheet Alignment
- ScrollStar energy efficient pneumatic compressor with oil and condensate free scroll module and refrigeration dryer
- Intelliline LED navigation support at the press
- Intellistart 3 Integrated software application
- Color Fast Solution integrated software application
- Wash Assistant Integrated software application
- Automatic Central lubrication system
- Press Center 3/XL 3 Color Assistant Pro
- Air Assistant Integrated software application
- Heidelberg DryStar Combination (with 3 modules)
- AutoPlate toollese plate change in approx 50 seconds per unit
