

2016 | KOMORI GL 640 C HYBRID

+ USED PRINTING MACHINES 2016 6 COLOR + COATER

The machine is equipped with a complete drying system including UV, H-UV and IR technology, providing high flexibility for a wide range of production requirements. Configuration includes two UV interdeck lamps, movable between printing units (positions 1, 2, 4, 5 and 6), allowing optimized curing depending on job setup. Additionally, the press is fitted with an IR dryer with integrated hot air at the end of press (EOP), as well as one UV lamp at delivery, ensuring efficient drying performance for both conventional and UV applications. The drying system is supplied by Baldwin (OEM), guaranteeing reliable operation and industrial production standards.

- APC fully automatic plate change
- KHS-AI (Advanced Interface) with Self-learning Function
- Infrared + Hot air dryer
- AMR - Automatic Make Ready
- Technotrans Alpha.D Refrigeration
- Grafix Digital powder spray
- High Quality Packaging Press (Hybrid)
- Automatic Ink Roller Cleaner (AIRC)

- Sheet Counter : 30 Mio.
- Max. format : 720 x 1,030 mm
- Min. format :: 360 x 520 mm
- Stock Thickness :: 0.04–1.0 mm
- Blanket format : 920 x 1040 mm
- Print output : 16.500 sph.
- Max. print format: 710 x 1020 mm
